

Riverside County Flex Benefit Update (September 21, 2016)

I know many of you have seen a document produced by the County that shows the flex benefits amounts for 2017 for each union. The document showed the other units, including SEIU, as getting a higher amount than you receive.

This was an inaccurate document, and the County is working on getting an updated, accurate version out in the near future.

In November, unless we negotiate something better, LIUNA's flex amount will increase to \$823.00 per month (family rate). SEIU has not received a nickel that you have not received.

We are scheduled to meet next with the County on the 29th, and we will post a bargaining update after that meeting.

Anyway, I just wanted to assure everyone that the LIUNA flex amount is keeping pace with everyone else's regardless of what is going on with our negotiations.

Stephen Switzer, Business Manager
